WHAT KIND OF CONSERVATIVE LAWMAKER SUPPORTS WASTE?

ESPECIALLY WASTE THAT COSTS TAXPAYERS A BUNDLE OF MONEY

MEET CONGRESSMAN KEVIN CRAMER.

North Dakota's oil and gas operators are literally burning away 18% of their product – **nearly $850 million worth of natural gas** that costs taxpayers millions in lost revenue.

Meanwhile, **Congressman Cramer just opposed a commonsense rule** that would limit the amount of flared gas that goes to waste on federal lands.[1]

TELL REP. CRAMER THAT A TRUE CONSERVATIVE SHOULD SUPPORT EFFORTS TO PREVENT WASTE AND SAVE TAXPAYER MONEY.

NORTH DAKOTANS DESERVE BETTER.
